MBY Token Lite Paper

Dogs Are Long Dead, **Monkey** Is Here

Roadmap Explanation

MBY is made to make De-Fi great again!

Our first goal is to create a decentralized exchange with the ability to trade currency in different networks. Our second goal is to make a cryptocurrency payment gateway for businesses.

All of these projects focus on growing tokens and creating a dedicated MonkeyNetwork network.

We will describe all these goals one by one in the following pages...

- **Monkey** - A Decentralized exchange between networks

This may seem far-fetched, but the Monkey has come to do it!

One of our most important goals is to become a Cross-Chain token!

It's going to be possible to swap Monkey between networks with the lowest possible fee compared to all available exchanges...

This feature should make swapping cross network tokens possible.

Dogs Are Long Dead, **Monkey** Is Here

- CC-MBY: Payment gateway for businesses

Part of the Monkey's income from an incredible 0.01% fee is spent on exchange.

Transfers and payments without commission and, of course, only for authenticated businesses!

If you want to make large transfers as a simple user, you still have to pay a fee. However, it will still be relatively cost-effective and rational compared to other transfer methods.

Note: Monkeys need bananas J

The MBY team is building a secure network on the blockchain platform to determine when it will be unveiled by the timer on the website.

- MBY Platform

And here's the master plan! We're going to make a De-Fi platform for all Meme tokens and Community driven tokens to use for cross chain features and for them to make an alliance.

More info on this subject will be released later

- Tradable MBY!

In short terms, our final goal is to make monkey listed on major exchanges for accessibility and easier trades.

Last but not least,

- The MBY Family

After all, Family is all that matters and we're here to make history with our family, MBY Community...

You read about our goals and the future of MBY in version 0.1 of our Lite Paper.

We will have more surprises for you from our programs on our White Paper!

Hoping to see you in our communities:
